

Certified ISO 45001 Internal Auditor Course

Master the Audit of Occupational Health and Safety Management System (OHSMS) based on ISO 45001:2018

Why should you attend?

ISO 45001 is the first global Occupational Health and Safety Management System standard that replaced OHSAS 18001. The ISO 45001 Internal Auditor training enables you to develop the necessary expertise to perform an Occupational Health and Safety Management System (OHSMS) audit by applying widely recognized audit principles, procedures and techniques. During this training course, you will acquire the knowledge and skills to plan and carry out internal and external audits in compliance with ISO 19011 and ISO/IEC 17021-1 certification process.

Based on practical exercises, you will be able to master audit techniques and become competent to manage an audit program, audit team, communication with customers, and conflict resolution.

After acquiring the necessary expertise to perform this audit, you can proceed for the exam of "Certified ISO 45001 Internal Auditor" credential. By holding an Internal Auditor Certificate, you will demonstrate that you have the capabilities and competencies to audit organizations based on best practices.
